

Acclaim from all corners of the world

Feedback from Alumni

The Center has long been committed to conducting international trainings. It also accepts requests for holding international and local courses. Owing to excellent faculty and course content, participants share with and learn from one another. This, in turn helps them when they return, make and formulate better suggestions and policies to improve their countries. At the same time, they get to know this beautiful and friendly country of Taiwan, thus successfully forge a strong bond of diplomacy and friendship.

INDONESIA(印尼)

ICLPST gave me opportunity to learn about land taxation and valuation which taught by professional from Taiwan and the World. My most unforgettable experience in Taiwan was to meet participants from various countries, sharing each other's country, work and family.

By the time I attended the training in Taiwan in 2013 my position was the land consolidation analyst. Currently I am head of the administrative sub-division of the land consolidation directorate.

Maria Septianni

HAITI(海地)

I want to congratulate the ICLPST staff once more for the great job they are doing for professionals in the fields listed above. I was really happy to attend to the training on Land Taxation and Right now, I'm teaching an adaptation at the Institut des Hautes Etudes Commerciales et Economiques (IHECE, Haiti) for a Bachelor Degree program, and I have just begun the same class for a Master Degree program. This training course attended at ICLPST impacted seriously and positively my professional career. Thanks a lot to the ICLPST staff once more.

BURKINA FASO(布吉納法索)

First and foremost, I would like to thank all the people of TAIWAN and the entire ICLPST Administration for the opportunity you have given us to train in your center. This training was an opportunity for us to strengthen our capabilities and share our experiences. It must be said that the courses were up to our expectations. Back in my country, I continue to put this rich experience to the benefit of my ministry and I shared this knowledge to my colleagues in the office or even the entire department. This training had an impact on my work and greatly changed my professional career. May God give you a lot of health so that you can train much more young people.

BELIZE(貝里斯)

Over the past year since getting back to Belize after spending two weeks at the ICLPST, I have regularly delved into knowledge I learnt during my time in Taiwan. At least 3 projects occurring in San Pedro, Belize are a direct result from thing learnt at ICLPST and for that myself and my community will be forever in debt to ROC Taiwan. Many blessings now and in the future.

Gary Greif

POLAND(波蘭)

I would like to express my sincere thanks for the opportunity to cooperate between the Taipei Economic and Cultural Office in Poland and the International Center for Land Policy Studies and Training in Taiwan and Wielkopolskie Region. It is thanks to the great commitment of the Institution that a perfect climate for cooperation has been created to establish common contacts and build an open atmosphere of cooperation. Thanks to Your kindness, I personally participated in the training in 2015. In the following years, my employees participated in the training. I would like to thank You for the perfect and extremely efficient organization of trips, highly professional way of conducting lectures and practical classes. Both the level of competence and the competence of the Center's staff, in connection with the friendliness of the hosts, allowed during seminars to understand difficult innovative concepts, which was not an easy task for many international groups of participants. Emphasis on the flexibility of the course, which allows all participants to participate actively in the course, and the friendly atmosphere during the course promotes the establishment of permanent knowledge. It is a nobility and motivation for us to constantly improve our knowledge and skills. It is a great honor and pleasure to work with You. At the same time, I would like to express my readiness to participate in all subsequent initiatives, transferring to the native experience and positive observations of these valuable trips.
